## INTRODUCING

### *Breaking Free from Your Headaches* *Live* COMMUNITY WORKSHOP!

Did you know that Headaches are the #1 reason an individual takes an over-the-counter pain medication? You probably are because if you are reading this, either you or someone you know is a Headache sufferer.

Studies show that 50 million Americans experience frequent Headaches and 12 million of them suffer Chronic Daily Headaches. Migraines affect over 28 million, and now research reveals that over 20% of children are experiencing headaches as well. Headaches cause 157 million days of work to be missed each year and costs US employers over \$24 billion dollars annually.

#### **It's not difficult to see why we are experiencing a Headache Epidemic!**

Over the past 12 years, we've had the honor and privilege of helping literally thousands of people in our wonderful community to overcome their health challenges, and more than likely if you are suffering from headaches, we can help you as well.

Please give us a call or just stop on by, and I will personally give you a tour of our office, and introduce you to our wonderful staff.

We truly look forward to seeing you soon at the office or at one of our upcoming Headache Workshops!

Warm regards,

*Dr. Darrell*
